Project Name	Containment Zone Alerting Application

The screenshot shows the IBM Cloud Container Registry interface. On the left is a sidebar with navigation links: Container Registry, Quick start, Namespaces (1), Repositories (0), Images (0), Trash (0), and Settings. The main content area is titled 'Namespaces'. At the top of this area is a 'Location' dropdown menu set to 'Dallas'. Below this is a table of namespaces. The table has columns for Name, Resource group, Repository count, Image count, and Retention policy. There is one namespace listed: 'containment-zone' in the 'Default' resource group, with 0 repositories and 0 images, and a retention policy of 'Retain all images'. Above the table is a search bar and a 'Create' button. At the bottom of the table, there are pagination controls showing '1-1 of 1 item' and '1 of 1 page'.
